Madonna

Out of all of your performances at various MTV award shows, which is the most memorable for you?

My performance of *Like a Virgin*

Before shooting a video, how do you choose a director?

I look for someone with a real point of view. A good story teller, a visionary...

How important has MTV been to your career?

Madonna television has been very important to my career. I'm not sure why they shortened their name to MTV. Nevertheless, our career started at the same time. MTV's support has and still does allow me to express and share my vision with the world.

Out of the many videos you have shot, what is your personal favorite video?

This is hard to answer. I have many favorites.

If you could do over a video from the past, which would it be?

I wouldn't do any of them over. I'm quite happy with how they've all turned out.
